

# VIRGINIA REGIONAL NETWORKING ALLIANCE

SATURDAY, JANUARY 24, 2015 | 1:30 – 3:00 PM  
GEORGE MASON UNIVERSITY – JOHNSON CENTER LIBRARY  
4400 UNIVERSITY DRIVE, FAIRFAX, VA 22030

---

**RSVP to Carol Evans at  
(757) 562-2988 or  
evanscarol75@gmail.com**

**Please RSVP by January 21, 2015**

The Virginia Regional Network Alliance (RNA) is designed to give individuals and families an opportunity to share personal experiences, knowledge of the disease and strategies for quality of life. Group members will learn they are not alone nor without help or hope.

## **Guest Speaker:**

Dr. Raj Kasthuri, Director of the UNC Center for Excellence will join the group to discuss HHT, how to manage your symptoms and the latest in HHT research. There will be time for questions after Dr. Kasthuri's presentation.

---

Cure HHT deepens and renews our commitment to the HHT community. We have one mission that drives everything we do – to find a cure for HHT disease, a genetic blood vessel disorder that affects 1 in 5,000 people - 90% of whom are undiagnosed. HHT afflicts the lives of more than 1.4 million people worldwide with most unaware that "nosebleeds in the family" can be something much more and potentially life threatening. Cure HHT is the only patient advocacy organization in the world solely focused on HHT patients. The Foundation will go to the highest-return initiatives that can improve life of HHT patients today and in future generations by:

- Providing "seed money" for research on promising therapies
- Improving access to care by adding more HHT Treatment Centers
- Building a registry of HHT patients to find which treatments work best
- Standardizing HHT treatments to ensure patients get global best practices
